Mayor Message

It is heartening to note that the Municipal Corporation is bringing out its e-newsletter. The Municipal Corporation is striving to provide basic infrastructure facilities to the residents of the city. Also, the corporation has a deeper appreciation for the concept of a sustainable and smart city.

Kota was once known for its Industries, Kota stone, Kachoris and River Chambal and then the coaching revolution arrived. Starting from a few hundred, we now welcome almost 1.5 lac students every year from every corner of the country.

It will not be an exaggeration, if we say that Kota is home to India. But, the future has a lot in store for the city and we are on the threshold to become one of the Smart Cities in Rajasthan. Along with the location advantage, the natural and human resource available in the city strengthens our claim to be a smart city. Our selection as smart city can open the doors of huge opportunities. But as the saying goes, with every opportunity comes a greater responsibility. In case of smart city also, we have to become more responsible, not only toward ourselves but also to the city of Kota. Paying taxes on time, preventing ourselves from littering, not encroaching on government land are some common measures through which we can contribute.

Now, it is up to us people, to strive for this goal. We have to decide, what we can do for the city to which we owe a lot. I am hopeful that the e-newsletter will become a strong platform to discuss about the important matters related to the development of the city. I convey my best wishes to team of Municipal Corporation officials for bring out this e-newsletter and request the people of the city to come up with ideas and suggestions to make Kota more safe, sustainable and smart.

Mahesh Vijay
Mayor

Dypt. Mayor Message

The country is on its way to become the third largest economy in the world. Both urban and rural India is growing at steady space. Cities are become more resilient and sustainable - but among them, Kota holds its own important place. The city has been announced in the top 100 smart cities in the country and this opens a window for us to the new world of opportunities.

But to capitalize on this opportunity, the public representatives, administration and people of Kota have to become a single unit to remove hurdles in the path of its progress. Everybody has its own important role and it is required that one must fulfill one's duties and responsibilities. It is heartening to learn that Kota Municipal Corporation (KMC) is coming with its e-newsletter. Through this the KMC will be able to inform people about the works being performed and will be able to assess the results through the feedback of the people. Also, people will be able to provide their views and suggestions about various developmental works and requirement of the cities.

I am sure this e-newsletter will become a strong media for communication across various platforms, groups, intellectuals and individuals of the city. I convey my best wishes for its publication and extend my full support to it.

Smt. Sunita Vyas
Dypt. Mayor

Commissioner Message

I express my hearty greetings and wishes to Kota through this first edition of e-newsletter of Kota Nagar Nigam. I am very excited about this new platform for interacting with all of you, the citizens of Kota, and would like to take this opportunity to invite you to join hands with the Nagar Nigam in the process of making Kota a Cleaner, Greener and a Smarter City.

Kota is known for its rich Hadoti history and heritage, the amazing views and pristine beauty of our Chambal, the mouth-watering spicy kachoris, the shine and durability of popular Kota Stone, the elegance of our Dorias, the grandeur of our Dussehra Mela and above all, Kota has made its mark on the world as a major talent hub launching numerous engineers, doctors and the best talent in the world.

With our consistent and focused efforts, we are glad to inform you that Kota has been selected among the Top 100 Smart Cities declared by the Government of India, as part of the Smart Cities Mission. Now, we want to take a step ahead and add one more feather in our hat by adding Kota in the prestigious list of the First 20 Smart Cities of India to be developed. This challenge presents great opportunity for the future of Kota and our Nagar Nigam is leaving no stone unturned towards achieving this. Making this dream a reality lies in the collective wisdom and active participation of all citizens. Through this platform, I want to make an appeal to all citizens to actively contribute towards the smart city mission by engaging with us on Smart City Kota's website, facebook and twitter page. For more details, please visit our nodal www.smartcitykota.com.

Our Nagar Nigam is working round-the-clock to keep the city beautiful, clean and green with special high workforces monitored by the Nagar Nigam. A Clean Kota is a joint responsibility of all residents of Kota all of us need to say no to plastic and take initiative to manage garbage, and ensure the beauty of the green plants on the "Anchal of Kota".

I firmly believe that with the joint efforts of every citizen of Kota and wishes of all our alumni the doctors and engineers produced by Kota, we will make this dream of a Smart City come true. Once again, I wish you all health, wealth, happiness and success.

Shiv Prasad M. Nakate
(I.A.S.)
Commissioner

Smart Cities Mission

Cities are engines of growth for the economy of any country. As per Census 2011, nearly 31% of India's current population lives in urban areas and contributes 63% of India's GDP. With increasing urbanization, urban areas are expected to house 40% of India's population and contribute 75% of India's GDP by 2030. This requires comprehensive development of physical, institutional, social and economic infrastructure. All are important in improving the quality of life and attracting people and investments to the City, setting in motion a virtuous cycle of growth and development. Development of Smart Cities is a step in that direction.

In the approach to the Smart Cities Mission, the objective is to promote cities that provide core infrastructure and give a good quality of life to its citizens, a clean and sustainable environment and application of 'Smart' Solutions. The focus is on sustainable and inclusive development and the idea is to look at compact areas, and to create a replicable model which will act like a light house to other aspiring cities. The Smart Cities Mission of the Government is a bold, new initiative. It is meant to set examples that can be replicated both within and outside the Smart City, catalysing the creation of similar Smart Cities in various regions and parts of the country. Some of the Smart Solutions identified by the Ministry of Urban Development, Government of India are in e-governance and citizen services, urban mobility, energy management, waste management, water management, etc., as per its guidelines.

The Smart Cities Mission will cover 100 cities across a period of five years. A few months ago, the list of the top 100 cities selected for the mission were announced comprising of four cities from Rajasthan (Kota, Jaipur, Ajmer and Udaipur).

In this regard, Feedback Infra Private Limited in association with Buro Happold Engineers India and CISCO Systems India has been selected as consultants for supporting and assisting Kota Nagar Nigam in participating in the Challenge, by preparing the Smart City Proposal, addressing a spectrum of Citizen needs and providing strategic plans for the development of Smart City Kota. Based on the Smart City Proposal, the top 20 cities would be shortlisted from amongst the 100 cities for implementation in the first year. It is a top priority of each and every citizen of Kota along with the Nagar Nigam to put in every effort possible to prepare a suitable proposal for selection in the Top 20 to ensure the rapid development of a Smart Kota.

Over the last few weeks, Kota Nagar Nigam and the consultants have undertaken comprehensive citizen engagement to understand the citizens' issues and seek ideas and suggestions for Smart City Kota (through online and offline platforms).

Nagar Nigam officials and consultants have interacted with several groups, individual citizens and forums over the last two months and continue to seek active citizen participation:

- Educational Institutions students and faculty of Rajasthan Technical University, University of Kota, Mahaveer Open University, Bansal Public School, Scouts Eco Club etc.
- NGOs, Forums and Associations such as Rotary Club, ISTD, JCI, Search & Service
- Media workshop
- All key citizen representatives MP, MLAs, Mayor, Deputy Mayor, Parshads
- Citizens across multiple socio-economic tiers at various forums workers at Keshavpura and Kunhari, citizens at CV Garden, slum dwellers across multiple bastis, senior citizens at Karni Nagar Vikas Samiti, differently abled citizens etc.
- Business Groups / Associations: Industrialists/ Industrial Associations, Trade Associations/ Shop Owners, Industry workers and Developers
- Across major events Dusshera Mela, event at City Mall, etc

Further, a number of contests have been conducted for incentivizing citizens, particularly the youth, to participate in this mission vision contest, tagline contest, voice of youth contest, painting contest, etc. A number of surveys are being conducted across the city to seek citizen inputs.

Over the coming weeks, the Nagar Nigam and consultants plan to have several further rounds of interaction with its citizens. If you would like to participate, as an individual or as part of a larger group, please reach out to us at smartcitykota@gmail.com or visit www.smartcitykota.com for more information and to reach us. You can also write in at: Municipal Commissioner, Nagar Nigam, Kota or call 09314617407.

The Nagar Nigam has also launched several online means of interacting with and updating citizens

- Smart City Kota Website: www.smartcitykota.com has been created to act as a nodal website for all Smart City Kota related activities including information updates, event, competitions etc.
- Facebook: www.facebook.com/SmartCityKota/
- Twitter: www.twitter.com/SmartCityKota
- MyGov.in: <https://mygov.in/group-issue/smart-city-kota/>

Let us all join hands and work towards achieving this dream

let's make Kota India's best Smart City!

Major works of Civil department

Civil Department play a major role to provide infrastructure and maintenance of public facilities. In continuation of better service and facilities we have completed following projects recently :

1. With investment of Rs. 13,00,000.00 (Rs. Thirteen Lacs) from Nagar Nigam fund we make 14 Nos. of Community Toilet at Ward No. 35 with help of Sulabh International.
2. Public facility toilet at Traffic Garden , Kota with all modern facility with a investment of Rs. 9,00,000.00 (Rs. Nine Lacs) from Nagar Nigam Fund.
3. Ten Seated Deluxe Public Toilet made by Nagar Nigam Kota at Rangbari Road with a investment of Rs. 24,00,000.00 (Rs. Twenty Five Lacs)
4. New shelters are made by Nigam Nigam to facilate the public under National Urban Live hood Mission (NULM) at New Medical College (66.83 Lacs), Bus Stand , Nayapura (Rs. 73.45 Lacs) and Bhimgang Mandi (78.55 Lacs) where 182 person can stay at a time.

With Swachh Bhart Mission programme Nagar Nigam plans for Public Toilet at following areas :

1. Near Govind Dham Mandir
2. Chambal Colony
3. Subhash Cirle
4. Sajidheda
5. Chhatrapura motor market
6. Bhoi Mohalla – Kotri
7. Karbla Ghat – Ladpura
8. Fatehgadhi- Near Grant Hotel

Nagar Nigam , Kota plans to provide toilet facility to residents houses with a target of 12150 house hold. We have selected 2163 houses with a fund of Rs. 8000.00 each from Government of India under Swacch Bharat Mission.

High speed Wi-Fi to make Kota Nagar Nigam first Smart zone in Hadauti

KOTA; High Speed 4G Wifi facility will be available at Kota Nagar Nigam zone by next month. Gadgets like Computer, mobile phones and tablets will be running very fast and five movies can be downloaded within just half an hour.

The discussion regarding the same has been going on between Nagar Nigam officials and Reliance Jio Infocom, the only high speed 4G internet Service provider. Now, only some necessary equipment installation and initial investigation work remains, hopefully this work would be done by the next month.

Fourth generation internet facility (4G) LTE (Long term Evolution) Technique is latest in the world and has unique role in speed. For example, with the internet we are using now, the downloading time for one movie will take one and a half hour to two hours and is time consuming due to buffering, etc. But on 4G network, the work will be done within 5 to 7 minutes with High speed net without any buffering time.

All these efforts are a part of the Prime Minister Narendra Modi's pet project "DIGITAL INDIA" where 4G LTE technique will play a significant role. Reliance Jio has been working speedily in the state so that services can be officially launched in Rajasthan by December along with rest of country. Officials of the Reliance Jio said that more than half of the work has been completed in Hadauti. If legal permissions are allotted for installing tower, then this work will be completed more speedily.

Special Cleaning Work Campaign

A. Door to Door Garbage Collection

As per state Government guidelines tenders were invited for the purpose of garbage collection from door to door of various cities, the 184 Nagarpalikas were divided in 111 clusters. But in most cities bidders didn't participate in the bid. Now as per state government's guidelines new RFP is to be issued by making partial changes in RFP issued earlier based on the needs at local level. For this purpose RFP issued in other cities is to be studied and after discussing with agencies working in this area proposed RFP to be issued soon.

B. Solid Waste Management (Feasibility Report)

As per state government guidelines tenders were invited for "Preparation of Feasibility Report Under Guidelines of Solid Waste (Management and Handling) Rules- 2000 on the basis of "Waste to Energy" at kota city . For this work one bid is received whose technical and financial bid has been opened, after negotiation the rate of 18.00 lakhs is received. Work order is under process.

-Cleanliness in Municipal Towns

- (i) Earlier as directed by the state government Special cleaning campaign was run in Kota city in which 7262 ton garbage was picked up. Photos are attached.
- (ii) In present Municipal Corporation of Kota has completed cleaning of almost all major drains of Kota city in terms of cleaning prior to rain. Various drains located at inner slums of the city have been cleaned. Years old trash what were placed in empty plots are being taken away. Other than this cleaning and repairing of various parks, toilets and urinals have been started. Actions like Cash fine penalty and chalan are being imposed on littering.

With special work plan in July month night-time cleaning is being taken place in city's prime markets like station, shopping centre, Gumanpura, Raipura. For this job separate 30 labourer and 3 tractor trolleys are in function. In present 600 tons of garbage is picked up per day in place of 450 tons daily by municipal corporation Kota.

3- Dumping Yards

In present the trenching ground of Municipal Corporation, Kota is located at Nanta road. Now Biological Park's permission is given by the central near the site, thus there is a need of shifting this ground on an alternative location. Urban Improvement trust of Kota has marked a land near jagpura on jhalawar road.

Shortly after completion of necessary formalities necessary actions will be taken.

- 1- Property connection: - for sewerage property connection state government approved 500 lakhs by letter no. 2670 dated 22.03.2015. An expenditure of 244 lakhs has been made for this work.

Total proposed connection - 4700

Completion of connection to sewer line - 1276

Completion of chamber building but connection will be issued by UIT after completion of missing links work - 1606

Connection work remaining - 1818

Special Cleaning Work Campaign

Special Cleaning System developed by Kota Nagar Nigam at night hours to keep Kota Clean, with a team of 60 workers under monitoring of Nigam Officers.
